Please note that all Zoom meetings will cease when we return to school full time on Monday 25 October 2021.

Assessing Work Samples

Due to planning for return to school, we will now assess the previous week's work throughout the week. Please check the comment and rubric from the Classroom Teacher, if you would like feedback on your child's work from the previous week.

Timetable Colour Coding

MUST DO - these learning tasks are important to complete and will receive feedback from the teacher via the rubric.

CAN DO - these are learning tasks students can do to help maintain their progress.

OPTIONAL - these learning tasks are optional and students can choose to complete them.

How students complete their learning tasks

The way that students complete the learning tasks online is up to parents and carers. Parents may want you to work in a workbook, on a worksheet, or they may let you work online. It is up to parents and what suits your family best.

Stage 2 teachers have seen some amazing work samples and the majority of students are actively engaging in Learning from Home with the support of their families. We really appreciate the effort everyone at home is making at this difficult time. Just a reminder that you can only upload 20 pieces of work at the

maximum. Stage 2 teachers will endeavor to provide feedback via the rubric on Google Classroom by Tuesday afternoon the following week.

Contacting Classroom Teachers

If you or your child require clarification of expectations, you can either contact the class teacher through the school by sending an email sanssouci-p.school@det.nsw.edu.au or you can choose an alternative activity to complete with your child.

Kind Regards

Mr Gordon Callaghan
