

Dear Parents and Carers,

Click this link to access the Stage 2 Online Learning Timetable for this week, your child will already have their own copy in Google Classroom: along with all the other documents they need to complete their learning tasks:

<https://docs.google.com/document/d/1WThdGMR76NqzuZLLIXVUXIZDdQfpCdtTOYKAevg60UI/copy>

Tuesday Zoom Meeting

Each week there will be a 20 minute check in to see how students are accessing Online Learning and to answer any questions students may have about Online Learning. Students will access the Zoom Meeting via a link in Google Classroom on Tuesday 24 August 2021.

Wednesday Year 3 kNOw Waste Binwise Zoom Meeting

Last week, the Year 4 classes accessed a Zoom hosted by the local council called kNOw Waste, it was about recycling and disposing of rubbish correctly. This week, Year 3 students will attend a session on Wednesday. Students will access the Zoom Meeting via a link in Google Classroom on Wednesday 25 August 2021.

How students complete their learning tasks

How you complete the learning tasks online is up to parents and carers. Parents may want you to work in a workbook, on a worksheet, or they may let you work online. It is up to parents and what suits your family best.

Stage 2 teachers have seen some amazing work samples and the majority of students are actively engaging in Learning from Home with the support of their families. We really appreciate the effort everyone at home is making at this difficult time. Just a reminder that you can only upload 20 pieces of work at the maximum. Stage 2 teachers will endeavor to provide feedback via the rubric on Google Classroom by Tuesday afternoon the following week.

Assessing Work Samples

We assess the previous week's work on Monday and Tuesday. Can I please ask parents to check the comment and rubric from the Classroom Teacher every Wednesday if you want feedback on your child's work from the previous week?

Stage 2 teachers assess this way as it is not possible for us to click through all the work samples to check constantly as everyone is working at their own pace.

Please discuss with your child about not just posting in the Stream as it is impossible for us to track completed work via the Stream. Teachers have commented about this in Google Classroom and on Zoom.

Contacting Classroom Teachers

If you or your child are unclear of the expectations, you can either contact the class teacher through the school by sending an email sanssouci-p.school@det.nsw.edu.au or you can choose an alternative activity to complete with your child.

Due to the current circumstances with limited staff on site and current COVID restrictions around limited movement within our community printed copies are no longer available.

Kind Regards
Mr Gordon Callaghan
Stage 2 Assistant Principal
